

## PROFILE

I am a person that likes solving problems, not all the time you will have the ideal conditions to fix a problem, so I adapt to the circumstances and changes. I try to find solutions and I like to share how to fix a problem.

Throughout my career I have learned that it is most important to find solutions and make teamwork than keep the knowledge for myself.

The best you can share to the other is the knowledge.

## BIRTHDAY

September 7, 1984.

## ADDRESS

Victoria #560, Villas Terranova, Tlajomulco.
